## \$31,000,000 Spent in Europe By Jewish Relief

## American Organization Reports \$16,000,000 Raised in Non-Sectarian Campaign Throughout U. S.

## 33 Countries Gave Aid

## Almost Half of Appropriation Was Expended in Poland, Lithuania, Kurland

A report made public yesterday by the joint distribution committee shows that more than \$31,000,000 has been expended by the American Jewish Relief in Eastern Europe and various war-affected areas throughout the world since aid for Jewish sufferers was organized.

Most of the funds which the committee spent in thirty-three countries and territories was raised by the American Jewish Relief Committee, of which Louis Marshall is chairman. In the last eighteen months, when the committee carried on non-sectarian campaigns throughout the United States under the direction of Henry H. Rosenfeld, more than \$16,000,000 was obtained. It was the first time that the Jewish people ever went to others than those of their own religious persuasion to ask for aid.

Almost half of the appropriations went to Poland, Lithuania and Kurland, to whom \$14,784,000.76 has been allotted. They were followed by Palestine with \$4,345,337.38 and Russia with \$4,329,247.42. In Austria, Hungary and Galicia \$3,255,519.53 was expended. In Greece, Turkey, Serbia and Syria the total was \$1,542,909.79, and in Rumania \$1,218,150.86.

## Amounts Expended Elsewhere

Amounts expended in other countries included: Alexandria, Egypt, \$58,851.55; Algiers, Tunis and Morocco, \$9,000; Czechoslovakia, \$130,000.46; Jugoslavia, \$35,000; Abyssinia, \$11,797.23; Bulgaria and Occupied Serbian territory, \$26,600; Central Powers, \$388,451.53; Denmark, \$1,700; France (refugees), \$5,000; Germany, \$209,407.52; Holland and Belgium (refugees and students), \$94,615.70; Italy (prisoners of war), \$4,000; Persia, \$35,700; Switzerland (refugees and students), \$16,500; Spain (refugees), \$18,000; Baltic Provinces, \$63,201.28; Ukraine, \$393,285.04; Siberia (war prisoners), \$286,751.65.

Soup kitchens, milk stations, supplying of clothing, food and medicines and other emergency relief measures necessary to save war sufferers from annihilation by starvation and disease, comprised the major part of American Jewish relief work. With conditions becoming better in many localities, except in those parts of Eastern Europe where fighting is still going on or where the countries have not yet been opened for relief work, the committee is going more and more into reconstructive and rehabilitative relief, it announced.

The recent \$5,000,000 appropriations to carry out a reconstructive program in Eastern Europe in order that the people who have been saved from starvation may now become self-supporting, marks a definite change from palliative relief measures, except in cases of extreme emergency like in the Ukraine and Russia, the report states.

## Tools Sent to Poland

Sewing machines, tools and raw materials have been sent to Poland

and other Eastern European countries. Loans have been made to workmen and shopkeepers to establish them on a productive basis again, and factories and houses damaged by the war, have been repaired, the report shows.

Saving the child life of Poland is one of the most important phases in American Jewish Relief work, and one of the principal means utilized is in sending undernourished children to the country to recuperate in the children's colonies established by the committee. This will reach its highest point this summer, according to the report, when 50,000 children suffering from malnutrition will be sent to the colonies for one month, where, under expert care, they will be nursed back to health. Last January a Polish relief unit of twenty-five American Jewish relief workers, headed by Dr. Boris D. Bogen, was sent to Poland to organize and carry out relief work. Dr. Bogen has just returned to this country, and announces that the unit has organized relief in 1,604 places throughout Poland, has warehouses in Warsaw and ten districts headquarters from where one hundred trucks and automobiles of the unit, flying the American flag, reach out to every part of the country with relief supplies, money transmissions from Americans to their relatives in Poland, with food packages secured from the American Relief Administration.

## Two Killed When Plane Falls at Salisbury Beach

## Pilot and Wife of Last Year's Bay State gubernatorial Candidate Victims

SALISBURY BEACH, Mass., July 10.—Mrs. Richard H. Long, of Framingham, wife of the Democratic candidate for Governor last year, and Gordon L. Groah, of Lynn, an aviator, were fatally injured in an airplane accident here today. Gaston Cornet, of Pittsfield, mechanic for Groah, was severely hurt. The plane in which Mrs. Long was a passenger and Groah the pilot, was wrecked on the beach in the sight of several thousands persons.

The plane had flown over Hampton and Salisbury beaches on the course which Groah used for his sight-seeing and stunt flights. It was only a few hundred feet off the ground, over the beach here, when it went into a nose dive and came spinning down toward the gasping crowds. The flyer did not have altitude enough to regain control and the plane crashed on the beach.

## Destroyer Is Launched

## Fourth Named After Capt. Lawrence, of War of 1812 Fame

CAMDEN, N. J., July 10.—The destroyer Lawrence, the fourth named after Captain James Lawrence, of the War of 1812 fame, was launched today at the yards of the New York Shipbuilding Corporation.

It will take the place of the destroyer Lawrence which was recently sold for junk, with others, by the Navy Department.

Miss Ruth Lawrence, daughter of Supreme Court Justice Abraham Lawrence, of New York and grandniece of the late Captain Lawrence, was the sponsor.

## Coa l Company Sues the City

## Of Scranton, Pa., for Million

SCRANTON, Pa., July 10.—The People's Coal Company, owners of the Oxford Mine here, to-day entered suit against the city to recover \$1,000,000 damages. The action was taken as a result of the closing of the mine two months ago by Mayor Connell and the police under the provisions of the Davis Mine Cave Law.

This was due to the alleged destructive mining methods which resulted in the cave-in of streets and the tubing down of many business places and dwellings in West Scranton.
